**Description:**

A64 JADE TIRE PROTECTANT is a water-based acrylic tire protectant that contains no silicone. The coating cures dry to the touch in minutes, sheds water, dirt and other contaminants and lasts for months rather than weeks! A64 Jade Tire Protectant can be applied with additional coats to provide customizable levels of gloss from freshly cleaned to as glossy as a traditional silicone-based tire protectant.

**Directions:**

This product is ready-to-use and can be applied with traditional tire dressing applicators. Dispense the product onto the applicator and apply evenly across the tire’s surfaces with special attention to the whitewalls and tread. For additional gloss, apply additional coats after allowing 15 minutes to cure dry. Product cures dry to the touch over the course of application.

**General Info:**

May cause an allergic skin reaction.

**Cautions:**
